ScanSnap
iX2400

Connect your worlds
with one touch.

Scan, save and share at the touch of a button

Simplicity and High Performance at Your Fingertips

The ScanSnap iX2400 combines powerful, high-speed image processing with the signature one-touch scanning experience that users love. Designed for those who value speed, ease of use, and reliability, the iX2400 delivers high performance without the complexity of advanced settings or network issues—it's a USB-only model built for straightforward operation.

High Performance That Boosts Efficiency

The ScanSnap iX2400 is a powerful tool to streamline your daily tasks. Ready to scan in just 2.9 seconds**1 after opening the cover, it starts instantly with a simple one-button operation. With blazing-fast speeds of up to 45 pages per minute (double-sided, A4 colour at 300 dpi), it digitizes everything from contracts to receipts in seconds. Despite its compact size, the scanner holds up to 100 A4 sheets. For thinner and smaller documents like receipts, the included Receipt Guide ensures smooth scanning and still supports up to 50 sheets of A4 paper for greater convenience.

Whether you need to archive a pile of invoices at the end of the month, quickly digitize meeting handouts, or keep travel receipts organized for expense reports, the iX2400 makes the process fast and stress-free. Its speed and capacity mean less time spent at the scanner and more time focusing on your work.

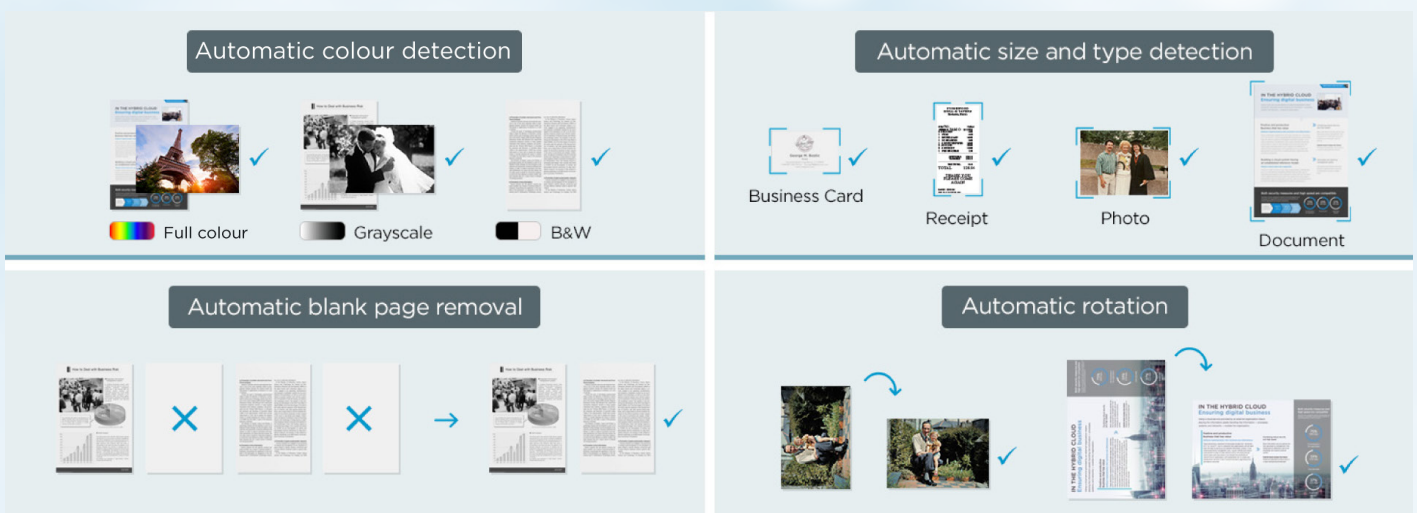

Reliable USB-Only Connectivity

With a dedicated USB connection, the iX2400 only needs to be set up once. Once configured, simply plug into your PC and start scanning.

This streamlined design is perfect for users who prefer not to rely on Wi-Fi or for environments where wireless connections are restricted.

Reliable Paper Feeding Technology

Engineered with commercial-grade feeding technology, the iX2400 ensures stable paper handling and minimizes risks such as multi-feeds or document damage. Features like an ultrasonic sensor, precision brake roller, and automatic skew detection provide consistent performance and protect your important documents. From multi-page contracts to fragile receipts, you can scan with confidence knowing that your documents are safe.

Assured, High-Quality Image

Thanks to PFU Clear Image Capture technology, the iX2400 delivers sharp, accurate scans. It reduces colour shifts and minimizes moiré patterns (irregular striped pattern). The ScanSnap iX2400 ensures optimal images even for photographs and documents with subtle colours and contrast.

The all-in-one solution for document management

ScanSnap Home^{*2} is a comprehensive document management software specially designed for ScanSnap scanners. Easily manage, edit, and utilize scans with just one application.

Accommodates any scanning environment

- Create profile icons to preset save-to destinations, colour settings, and much more.
- Save as PDF, searchable PDF, and JPEG for versatile utilization of scanned data.
- The Quick Menu enables you to select saving and integration destinations after scanning, which raises productivity. Users can drag and drop scanned data to popular applications or send it to the supported cloud services.

Environmentally conscious

The power consumption of the iX2400 during operation is approximately 13W, and the power consumption when turned off is less than 0.1W.

The production process is also environmentally conscious. The scanner body is made of 25% or more recycled plastic materials^{*3}, and the packaging materials, etc., are free of virgin plastics derived from fossil resources^{*4}.

*1 When in Fast mode. *2 There are a PC version and a mobile version. The iX2400 supports a PC version. For details of ScanSnap Home, please visit our website at: <https://www.pfu.ricoh.com/global/scanners/scansnap/sshome/>. *3 The percentage of recycled plastic used may vary depending on procurement conditions. *4 Pre-consumer materials, which have not been used by consumers and are generated during the manufacturing and molding processes, are used
